

**Dear Educator:**

The following documents are a sampling of materials to be found on our Florida Invasive Plant Education Initiative Website:

<http://plants.ifas.ufl.edu/education>

**To get the most out of these materials, be sure to see the Teacher Guide for each of the four modules (listed first on each Module page).**

All lessons and activities meet Florida Sunshine State Standards; see them listed at the end of each Module Teacher Guide.

Each module may be used in its entirety or parts may be used as “stand alone” lessons, labs or research activities, depending on time limitations and classroom goals.

Thank you for all you do!

Sincerely,

*the Outreach Team at the UF/IFAS Center for Aquatic and Invasive Plants*
