Explore our Web Site ... Win a Prize

Dear Educators,

Thank you for your interest in Florida's beautiful and diverse plant life. We hope our education web site and companion web sites will inspire you to take an even closer look at Florida's native, non-native and invasive plants and then share the information with students and colleagues. (See also our [Main CAIP website](#) and [Plant Management in Florida Waters](#)).

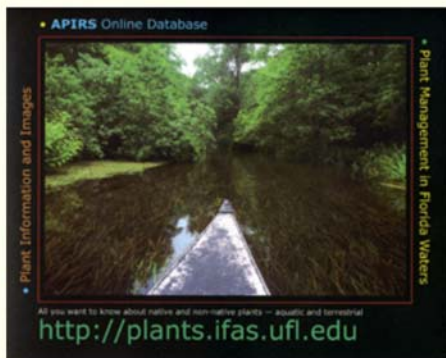

Learn more by taking a quick tour with our [online scavenger hunt](#).

In return, we'll send you mousepad and a stack of "webcards" (see below). *

Note: Classroom sets of webcards, pencils and magnifiers are available for students to use as a resource for botanical science investigations.

Our e-mail: CAIP-education@ufl.edu

*Due to limited supplies, this offer is only available to educators.

Mousepad Dimensions - Canoe 7 in. x 8 3/4 in., String lily 9 1/2 in. x 8 in.

- Module 1: Silent Invaders
- Module 2: A Fish Tale

Webcards for Educators

Webcards

Dimensions: 9 cm X 5 cm (2 in x 3.5 in)

Give them to family, friends, colleagues, fellow garden club members, teachers, or students... or keep a few in your wallet as a handy way to remember two websites that are loaded with helpful information about Florida's aquatic and invasive plants – native and non-native

Here's an idea: Give them to your students as part of a web scavenger hunt for extra credit. Or ask them to sit down with their parents so they can do a plant research assignment together. Let us know how you're using them and we'll send you a prize!
