

KEYWORDS			
Part 1	Part 2	Part 3	Part 4
aquatic	algae	diffuse	career
atmosphere	bacteria	fish kill	environment
climate	carbon dioxide (CO ₂)	invasive plants	management plan
dissolved oxygen (DO)	chemical process	wind and wave action	water monitoring
oxygen	decomposition		volunteer
parts per million (ppm)	photosynthesis		
water temperature	respiration		
	submersed plants
